

## Great American Announces Enhanced Marina Program

Great American Insurance Group's Ocean Marine Division is pleased to announce enhancements to its Marina Insurance Program that now provides the most comprehensive coverage in the industry to marina owners and boat dealers.

Great American has long been a preferred provider of insurance protection to commercial mariners, offering specialized products for watercraft, piers and docks, cargo, spill responders and others. The enhancements to its Marina program will permit a more complete and seamless property and casualty coverage of a wider variety of exposures, including broader inland marine coverages, hired and non-owned automobiles, title errors and omissions, truth in lending, yacht broker liability and signs.

### About Great American

Great American Insurance Company, founded in 1872 and based in Cincinnati, OH, is a member of Great American Insurance Group, whose property and casualty insurance operations represent one of the oldest and most respected P&C groups in the United States. Great American's parent company, American Financial Group, Inc., is a publicly owned New York Stock Exchange listed corporation (NYSE:AFG) based in Cincinnati, OH. The operations of Great American Insurance Group focus on specialty commercial products for businesses and in the sale of annuities, life and supplemental health insurance products.
